PATENTS,
AMERICAN AND FOREIGN OFFICE,
And Agency of the U S Patent Office, Washington,
No. 22 State-Street, Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded, free of expense and risk to their owners and with all possible despatch The subscriber will prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents The experience of fourteen years practice—an extensive collection of rare works, documents, decisions &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established and to which daily additions are being made together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors the mode of securing Patents, which in other respects might be difficult of attainment

Dr. S. O. Richardson's
CELEBRATED SHERRY WINE
BITTERS.

THE Proprietor of this Medicine offers to the Public the result of an extensive [illegible] efforts and a thorough investigation of the laws which govern the human system

It cannot be denied, by those who have become acquainted with the singular virtues of these Bitters that they possess a pre eminence over all the [illegible] in use for the diseases which they profess to cure

It is a well known fact that [illegible] a derangement of the Stomach and Bowels in youthful adult and declining life

"The stomach crammed with every dish
A tomb of roast and boiled and flesh and fish
Where bile and wind, and phlegm and acid jar,
And all the man is one intestine war"

The extensive sympathies which subsist between these and every other part of the living body is the foundation of nervous diseases of all kinds —Irregular Appetite Languor Drowsiness Wandering Pains, Headache Lowness of Spirits &c

And these in their turn give birth to Dyspepsia Palpitation of the Heart Shortness of Breath Jaundice Piles Fevers Inflammatory Humors Coughs and all of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity in cases of slight derangement of the Stomach and Bowels induced by costiveness or a slight bilious difficulty and the like, where nature needs assistance to prevent more serious consequences they will be scarcely felt

One the contrary in obstinate cases they frequently operate more powerfully causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished they act on the system in connexion with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

☞ For sale, wholesale and retail, at the Doctor's Office, No 15 HANOVER STREET, Boston and in Bangor by G. W Ladd, A P Guild Potter & Brown, Hall & Young and N B Folsom, and all the Agents throughout the State 3tawd&w1m

Notice to Mill Owners.

THE undersigned having purchased one half of the right of making, vending and using VALENTINE'S PATENT CAST IRON WATER WHEELS for the United States have at a great expense fitted up patterns for casting twenty one different sizes of these Wheels, which are particularly adapted to the various heads of water for which they may be wanted

Upwards of two hundred of these Wheels have been put in operation in this State within the past year, giving perfect satisfaction to the purchasers

A model of these Wheels was tested at Lowell Mass the past summer by a Board of Engineers" composed of Ithamar A Beard and James B Francis Esqs of Lowell and E A Straw Esq of Manchester and it was afterwards placed in the hall of the Mechanics Fair, at their last exhibition in Boston and received the only diploma awarded on water wheels

We annex an extract from the certificate of E A Straw Esq one of the board of engineers giving a statement of his experiments made with the model at Lowell, which establishes the great superiority of the Valentine Wheel over any of the kind in use

"MANCHESTER July 11 1844

Dear Sir —I send you the results of several experiments made at Lowell the other day with your Model of Valentine's Patent Reacting Wheel I consider the trial to have been a very fair one and the results are certainly very creditable to your wheel I think they prove conclusively that your wheel is at least 50 per cent stronger than any of the Tub or Reacting Wheels now in general use

The coefficient of effect or per centage of power derived from well constructed Breast or Overshot Wheels acting under favorable circumstances is usually reckoned at 66 per cent and that of Undershot Tub and Reacting Wheels at 33 per cent but in nine cases out of ten in practice I think it will be found that the power derived from Breast Wheels will not exceed 60 per cent of the power applied or the power derived from Tub Undershot or Reacting Wheels 25 per cent of the power applied; indeed I know of well constructed Tub Wheels acting apparently under favorable circumstances that do not give a coefficient of effect equal to 20 per ct

With the results of your wheel before us it needs no arguments to show how vastly superior it is to such Wheels as I have mentioned The least result obtained from your wheel gives us about 4 per cent of the power applied which is nearly double of the power that could be derived from the common wheels before mentioned acting under the same circumstances

I have added nothing to the coefficient of effect for the friction of the wheel and apparatus which according to our measure of it was 40 lbs or 1 10th of the heaviest weight raised If this were added as perhaps it should be to get at the actual effect of your wheel it would give as the result of all the trials a coefficient of effect of 50 per cent which I have no hesitation in saying is a result that may be obtained from any wheel similar to the model, well constructed and acting under favorable circumstances

Experiments Nos 1 2 and 3 were made without back water Ex No 1 400 lbs lifted 9½ feet—fall 5 08 feet—effect 42 1 10 per cent 2 400 lbs lifted 9½ feet—fall 5 08 ft —effect 41 9 10 per cent 3 400 lbs lifted 9 12 ft—fall 5 7 feet—effect 42 5 10 per cent

The mean of experiments No's 1 2 and 3 would be 42 4 10 per cent without the friction in all an average of about 4 per cent which may be considered as the effect of your wheel when working free from back water

In experiments Nos 4 5 and 6 the wheel was immersed in back water, but was very evidently overloaded

In experiments Nos 7 8 and 9 wheel was immersed in back water

Ex No 7 296 lbs lifted 9 1 2 feet high—fall 4 06 ft —effect 47 3 10 per cent 8 96 lbs lifted 9½ 2 ft —fall 4 0 1 ft —effect 58 3-10 per cent 9 296 lbs lifted 9½ feet—fall 4 01 feet—effect 48 1 10 per cent

The mean of experiments 7 8 and 9 would be 48 6 10 per cent besides the friction in all an average of about 53 per cent which may be considered as the effect of your wheel when working just immersed in back water

E A STRAW *Civil Engineer of the Manchester Water Power Co*

All persons wishing to purchase Mill Wheels and other fixtures, can have their orders executed promptly and on the most reasonable terms

Patent Water Wheel.

THE undersigned Agents for the manufacture and sale of VALENTINE'S PATENT WATER WHEELS are prepared with patterns for casting all the different sizes and forms of wheels required for the various conditions of water in which they are used

The superiority of these Wheels may now be considered as fully established, the evidence of which may be seen in the fact that hundreds of them have been put into successful operation in this State within two years past and also in the fact that a diploma was awarded for them by the managers of the Mechanics Fair in Boston last year, and further that many correct experiments were made by scientific Engineers at Lowell last season the results of which are stated in a communication by one of them prove conclusively that the Valentine Wheel is at least 50 per cent stronger than any of the Tub or Reacting Wheels now in general use

The undersigned are prepared to furnish the above Wheels together with all other kinds of mill work and machinery used in this section of the country upon the most reasonable terms

Cheap Cash STOVE WAREHOUSE. Nos. 80 and 82 Main-Street, BANGOR.

The largest, cheapest and best assortment of Stoves of all descriptions ever offered in this city.

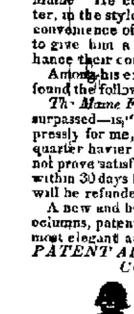

NATHANIEL JOHNSON, as above, has just rec'd and has on hand and for sale, cheaper than ever before offered, the best assortment of Air-Tight Cooking and other STOVES, in the State of Maine. He challenges competition from any quarter, in the styles, qualities, cheapness, economy and convenience of his stoves. All in want are advised to give him a call and thus save money, and enhance their comforts and convenience.

Among his extensive collection of Stoves may be found the following patterns and styles.

The Maine Farmer Gear Stove, which stands unsurpassed—is "the easiest made"—was cast expressly for me, made of the best of stock, is one quarter heavier than usual and if any one sold does not prove satisfactory, it can be returned any time within 30 days from the sale, and the price paid will be refunded.

A new and beautiful article of Parlor Stove with columns, patented last July. This is decidedly the most elegant article for the parlor ever offered.

PATENT AIR-TIGHT ELEVATED OVEN COOKING STOVES.

This Stove has been on sale but a short time, still it has obtained a greater notoriety than any other Stove ever offered, for its superiority and excellence in every branch of cookery as well as its great economy in fuel.

Stewart's Summer and Winter Air Tight Cooking Stove. Also Wager's Air Tight Cook Stove, warranted to give perfect satisfaction.

Likewise the PREMIUM AIR TIGHT with cast iron tops, and bottoms—lining inside—will keep its color and shape, &c. The Railway Stove—Hathaway Stove—Hampden Stove—Norton Furnace Stove, 4 boilers—Empire Union Stove—Shepherd's Hot Air, and 40 other kinds of all descriptions.

N J respectfully invites the citizens of Bangor and the adjoining country to call and examine his immense collection of Stoves, promising to sell them as cheap as they can be bought at any other establishment in the State. Especially would he caution his country friends against placing too implicit confidence in those itinerant venders of Stoves to whom they must not only pay a round price for their Stoves but they are also taxed for horse hire and other heavy expense in addition.

Please call at 80 and 82 Main st Bangor.

Orders for Copper, Sheet iron, or Tin Work gratefully received and promptly executed.

Dr. S. O. Richardson's CELEBRATED SHERRY WINE BITTERS.

THE Proprietor of this Medicine offers to the Public the result of an extensive practice and a thorough investigation of the laws which govern the human system.

It cannot be denied, by those who have become acquainted with the singular virtues of these Bitters, that they possess a pre-eminence over all others now in use, for the diseases which they profess to cure.

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful, adult and declining life.

"The stomach crammed with every dish,
A tomb of roast and boiled, and flesh and fish,
Where bile and acid, and phlegm and acid, jar,
And all the man is one intestine war."

The extensive sympathies which subsist between these and every other part of the living body is the foundation of nervous diseases of all kinds,—Irregular Appetite, Languor, Drowsiness, Wandering Pains, Headache, Lowness of Spirits, &c.

And these, in their turn, give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice, Piles, Fevers, Inflamatory Humors, Coughs, and a host of diseases which embitter life and poison all sources of enjoyment.

The distinguished character of these Bitters is most striking in their operation being more or less powerful according to the violence of the disease. When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels caused by costiveness or a slight bilious difficulty and the like, where nature needs assistance to prevent more serious consequences they will be scarcely felt.

On the contrary, in obstinate cases, they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified. This accomplished, they act on the system in connection with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor.

LORAINE'S PILLS: OR VALUABLE UNIVERSAL MEDICINE, CURATIVE, OF THE French College of Health, in Paris.

THESE Pills are now acknowledged by thousands, who take them daily, to be the only medicine that fairly takes the Banner from all others. This *Extraordinary Medicine* has actually done WONDERS within one year past all over the inhabited world where it has been introduced. They cause no pain, or uneasiness, of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the readers is respectfully called to the following important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine—still greater, and more remarkable cures daily happen.

SWELLING OF THE BODY FROM HEAD TO FOOT CURED!

BOSTON (Mass.) March 10, 1844.

SIR—About a year since I was taken severely ill, with a swelling of the body from head to foot, so that I was entirely helpless. The doctor advised me to go to the Hospital, for he said he did not understand my case. The persuasion of friends induced me to try Dr Loraine's Vegetable Pills, which in a few days, produced a great change in my system, by increasing the natural discharges, causing an appetite, relieving the pain, removing the swelling, and giving me strength and a perfect cure.

MARY JANE FRANCES.

A SEVERE PAIN IN BOTH SIDES, CURED!

LOWELL, (Mass) April 20 1844

Sir—For the last few months I have been afflicted with a severe pain in both sides at times so hard that I could scarcely get my breath * * * It is a pleasure to feel well—but a much greater one to say that I was cured immediately upon taking 1 dose of Dr Loraine's Pills. J BROOKS

A HACKING COUGH CONSTANTLY ANNOYED ME!

BOSTON, (Mass) June 1, 1844

Sir—In February last, I took a sudden cold, after which, a hacking cough constantly annoyed me, and this, combined with my other maladies rendered me truly miserable, as every body told me that I was in a consumption. Since I have taken Loraine's Pills, and now every body tells me that I am well;—I feel as well as ever I did.

BY THE QUEEN'S PATENT. TRIUMPHANT SUCCESS OF BUCHAN'S HUNGARIAN BALSAM, THE GREAT ENGLISH REMEDY FOR CONSUMPTION!

THE great and only REMEDY for Colds, Coughs, Asthma, and CONSUMPTION is the *HUNGARIAN BALSAM OF LIFE* discovered by the celebrated Dr Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this Medicine, in the cure of Pulmonary diseases, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as CONFIRMED AND INCURABLE. The Hungarian Balsam has cured and will cure, the *most desperate cases*. It is no quack nostrum, but a standard English Medicine of known and established efficacy.

INCONTESTIBLE PROOFS. Of the efficacy of this Balsam in the worst forms of Consumption.

From Dr. Storer of Saco, Me.

DR BRADLEE—Dear Sir, the Hungarian Balsam is, beyond all question a most [illegible] and admirable preparation, for the [illegible] of the lungs. I have used it in my family, and in my professional practice, for more than two years, with the most uniform and entire success, in cases of severe Pulmonary Disease, and I can conscientiously recommend it to all who are afflicted, as the most certain remedy for such diseases with which I am acquainted.

Yours Respectfully, FREDERICK I. STORER, M D

Saco, May 22, 1845.

Valuable evidence from David Bugbee, Esq. Bangor

BANGOR, Sept 18, 1844

DR BRADLEE—Dear Sir At your request I send you a report of my success as General Agent for the Hungarian Balsam. I have now had the Agency of that excellent medicine about two years and have sold in that period, nearly twelve gross, or 1728 bottles. Much of this has been used in the vicinity of Bangor but many dozens have been sent several hundred miles to Houlton and the Provinces to Machias, Eastport, &c. The success of this Balsam in the relief and cure of Pulmonary disease is [illegible]. Hundreds, I am sure, have been saved from a premature grave by this medicine [illegible] have been restored to comparative health, and the last moments of the dying have been made comfortable by its use. In cases of children with severe and obstinate coughs, it has been employed with great success, several instances of which having come under my personal knowledge. I deem it a grand medicine. Its reputation is established here, and the sales are constantly increasing.

Yours truly, DAVID BUGBEE.

Another Life Saved.

BATH, Me Feb 24, 1845

DR BRADLEE—Dear Sir I take much pleasure in giving you a statement of the beneficial effects of Buchan's Hungarian Balsam, on my daughter, who had been for a number of years afflicted with a bad cough, pain in the side, raising of blood and all those pains and trouble which attend that dreaded disease, Consumption. I employed a physician who attended her a long time at great expense, and then advised her to consult a celebrated physician in a neighboring town at still greater expense, and after a number of visits from the attending physician, and the continuance for some time of the family physician he declared he could do no more for her. He had done all that he could, and I could receive but little benefit from it. I then employed a Botanic [illegible] to do her some good, but did not reach the root of the disease. I was then advised by a friend to try BUCHAN'S HUNGARIAN BALSAM. I have used six bottles with a most astonishing effect. It has restored her strength, cured her entirely of her cough and pain in the side, and she is now attending to her accustomed duties. It may seem wonderful but it is no more strange than true, and I would advise all who have symptoms of consumption to take this medicine in season, and not wait till all hope is past, although this case terminated so fortunately. In this case I paid but ten, and two hundred dollars for physicians and nursing without any satisfactory benefit, when six bottles of the HUNGARIAN BALSAM has removed the disease, [illegible] the strength and brought on a healthy action of the system. Try it for yourselves and you will find the one half has not been told. You can use this letter as you think best and as will do most good, wishing that your medicine may benefit many as my daughter,

I remain gratefully yours, JNO YOUNG

P. S. I would say further that about five years ago my daughter commenced raising blood which continued at times for three years and some times very bad, till about two years when she commenced taking this Balsam. The first bottle stopped the raising of blood entirely and she has never been troubled with it since.

From J. L. Ladd, Apothecary, Augusta

AUGUSTA Me May 27 1845

DR BRADLEE Dear Sir Having sold the Hungarian Balsam for two years past and having personally observed its beneficial effects in many cases of lung complaints and some of them very severe, I do not hesitate to recommend it as an excellent preparation for those diseases for which it is recommended.

Very respectfully, &c. J L LADD

GREAT CURE AT AUGUSTA, ME

AUGUSTA May 27, 1845

DR BRADLEE Dear Sir I can truly say that the Hungarian Balsam has been of the most incalculable service to me. I have been cured of an affection of the lungs which was thought to be INCURABLE by all my friends, by the use of a few bottles. One of my children was also restored to health after being pronounced beyond the reach of medical aid by the physicians, and it is now my constant resort in case of any difficulty in the throat and lungs. I have recommended this Balsam to a great many persons and shall continue to do so, as I believe it to be the best thing in the world for diseases of the lungs.

Yours, truly, FRANCIS I WEEKS

From Edward Mason, Druggist, Portland, Me

PORTLAND, Me Apr 17, 1845

DR BRADLEE Dear Sir The Hungarian Balsam gives good satisfaction in this city and vicinity, and I have no doubt from the reports I hear of its salutary effects upon the lungs, that it is an excellent preparation for diseases of the lungs. EDWARD MASON,

Apothecary 52 Middle street

HEAR THE PRESS.

From the Christian Observer, March 3, 1845

The public may place the utmost reliance upon the statements respecting the Hungarian Balsam, by Dr Bradlee the American Agent, who is an old and highly respectable citizen of Boston, a member of a christian church, and a man who would not for any consideration give his influence in favor of any sort of deception or imposture.

From the Thomsonian

If any thing could reconcile us to a departure from Thomsonian principles, in the treatment of disease, it would be the extraordinary reputation of a medicine like the Hungarian Balsam, which we believe both from careful analysis and the statements of the inventor, to be a purely vegetable compound. The effect of this medicine in cases of Consumption, is sometimes truly astonishing.

☞ Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, Pain in the Side and Chest, Irritation and Soreness of the Lungs, Bronchitis, Difficulty of Breathing, Hectic Fever, Night Sweats, Emaciation and General Debility, Asthma, Influenza, Hooping Cough, and Croup.

☞ Sold in large bottles at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the Agents, gratuitously.

DAVID F. BRADLEE, sole Agent for the United States, 119 Court-street Boston—London Importing Warehouse.

THE GREAT NORTHERN REMEDY N. H. DOWNS' VEGETABLE BALSAMIC ELIXIR,

FOR Colds, Coughs, Consumption, Spitting of Blood, Whooping Cough, Asthma, Croup, Bronchitis and all diseases of the Lungs.

This medicine is purely Vegetable—the result not of mere theory and speculation, but of much study and research, during years of debility and suffering; and the inventor having succeeded in curing himself, and having tested its efficacy on thousands of individuals in New England and the western States, feels great confidence in recommending it to the public as a safe and efficient remedy. It operates most conspicuously in removing all morbid irritation from the Lungs and Pulmonary Organs, keeps the cough loose, promotes expectoration, and induces a degree of quiet in the system peculiarly grateful to the patient after having experienced so many days and nights of restless inquietude and suffering. Hear the testimony of those who have been benefitted by it. Hon Bates Turner, late Judge of the Supreme Court of Vermont, says, "I have been acquainted with the medicine called Downs' Elixir for seven years past, and from its effect upon myself and in cases where I have witnessed its effect upon others I consider it one of the most fortunate inventions ever made." Robert W Woodruff, Esq of Summerville, N J, after certifying to its good effects upon himself in a case of long standing internal weakness, and coughs, concludes thus—"This certificate is given with the hope that it may direct the attention of all suffering from colds coughs inward weakness, &c to this invaluable medicine."

Dr Gustavus Hills, of Ashtabula, Ohio, says, "I was induced to try the Balsamic Elixir and having used one bottle with decided advantage I followed it with another which I hesitate not to say have had a more pleasing and permanent effect than all other cough medicines I ever used." William C Perkins of Summersworth, Great Falls, N H says "I have used N H Downs' Vegetable Balsamic Elixir for phthisic and found immediate relief and do consider it the best medicine ever used by me for that complaint." B Baily Esq of Canton, N Y concludes his certificate thus "I have no hesitation in saying to the public that the said Balsamic Elixir was the only means of my recovery and I do most cheerfully and earnestly recommend it to the public." Chaplin Nelson of Waterford Me in a letter to the general agents dated March 10 1845, says "The agent of Downs' Elixir was here last month and left one and a half dozen bottles with me, not knowing its value did not take much, have sold all he left and finding it one of the most valuable medicines I ever had in my store to sell want you to send on another lot immediately by stage."

Pamphlets gratis may be had of Agents giving a full description of the medicine, etc.

A NEW article just received PHILLIPS SPYRAL TRUSS. This Truss is superior to any heretofore offered to the public and is the most durable.

—ALSO—

H's ABDOMINAL SUPPORTERS which are a decided improvement upon any heretofore used. All in want are requested to embrace the present opportunity of getting them very low. For sale in Bangor, by G W. LADD, Agent for the Proprietor

aug 7

INSENSIBLE PERSPIRATION.

THE above figure is given to represent the INSENSIBLE PERSPIRATION. It is the *great* EVACUATION for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface which indicates the wonderful process going forward within. This perspiration flows uninterruptedly when we are in health, but ceases when we are sick. It should be the care of every one to see that it is not checked. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The blood, by this means only works itself pure. The language of Scripture, is "in the BLOOD is life." If it ever becomes impure, it may be traced *directly* to the stoppage of the INSENSIBLE PERSPIRATION. It *never* requires any internal medicines to cleanse it, as it ALWAYS purifies itself by its own heat and action, and throws off all the offending humor, through the INSENSIBLE PERSPIRATION. Thus we see, all that is necessary when the blood is stagnant, or infected, is to open the pores, and it relieves *itself* from all impurity *instantly*. Its own heat and vitality are sufficient without one *particle* of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the Insensible Perspiration, but it seems to be not always the proper one.—The Thomsonian for instance, *steams*, the Hydropathist shrouds us in wet blankets, the Homœopathist deals out infinitissimals, the Allopathist bleeds and doses us with mercury, and the blustering Quack gorges us with pills, pills, pills.

But one object only is in view, viz—to RESTORE THE INSENSIBLE PERSPIRATION. If this can be done, they say, we will take care of the rest. It will be seen, therefore, that all physicians understand *alike* what is necessary to a recovery, however much they may differ as to the mode of obtaining it.

To give some idea of the amount and consequently the importance of the INSENSIBLE PERSPIRATION, we will state that the learned Dr Lewenhoeck, and the great Boerhaave, ascertained that five-eighths of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day we evacuate five pounds of it by the Insensible Perspiration.

This is none other than the used up particles of the blood and other juices giving place to the new and fresh ones by carrying with it all the impurities within, up to the surface. To check this, therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body. And even when this is the case, the blood is so active a principle, that it determines those particles to the skin, where they form scabs pimples ulcers and other spots, but if it is directed inwards, and falls upon the lungs, the consequences are generally fatal.

By a sudden transition from heat to cold, the pores are stopped the perspiration ceases, and disease begins at once to develope itself. Hence a stoppage of this flow of the juices, originates so many complaints. It is through the surface that we imbibe nearly all our ills.

It is by stopping the pores, that overwhelms mankind with coughs colds and consumptions. Nine tenths of the world die from diseases induced by a stoppage of the INSENSIBLE PERSPIRATION.

It is easily seen therefore how NECESSARY is the flow of this subtle humor to the surface, to preserve health. It cannot be stopped, it cannot be even checked, without inducing disease. The blood and intestines must relieve themselves of all their worn out particles, and poisonous humors and they must go through the pores as nature designed.

Let me ask now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores, after they are closed, and let the perspiration flow, that the blood may relieve itself of its impurities? Would you give physic to UNSTOP the pores? Or would you apply something that would do this upon the surface where the clogging actually is? Would not this be common sense. And yet I know of no physician who makes any external application to effect it. The reason I assign is, that no medicine within their knowledge is capable of doing it. Under these circumstances I present to physicians, and to all others a preparation that has this power in its fullest extent. It is *McAlister's All Healing Ointment* or the *World's Salve*. It has POWER to restore perspiration on the feet, on the head around old sores, upon the chest in short, upon any part of the body, whether diseased slightly or severely. When the perspiration is restored it has POWER to penetrate to the lungs liver or any other part of the human system, and so to act upon them if they be diseased by separating the inflamed morbid particles therefrom and expelling them to the surface.

It has POWER to cause all *external* sores, scrofulous humors skin diseases, poisonous wounds to discharge their putrid matter and then heals them.

It is a REMEDY that sweeps off the whole catalogue of cutaneous disorders and restores the entire cuticle to its healthy functions.

It is a REMEDY that forbids the necessity of so many and deleterious drugs taken into the stomach.

It is a REMEDY that neither sickens, gives inconvenience, or is dangerous to the intestines.

This REMEDY is probably the only one known that is capable of producing all these great results. Its great value is in restoring *at once* the circulation of the juices when checked or deranged by cold or other causes. It preserves and defends the surface from all derangement of its functions while it keeps open the channel for the blood to void all its impurities and dispose of all its useless particles.—There is a connection harmony and feasibility in it all that defies contradiction. It is a simple but wonderful principle that preserves in healthy operation the entire machinery of our being.—It indissolubly holds together the *surface* and *internal Viscera*, the *internal Viscera* and the *surface*. They are inseperably connected and cannot be disjoined. The surface is THE outlet of five eighths of the bile and used up matter within. It is pierced with MILLIONS of openings to RELIEVE the intestines. Stop up these pores and DEATH knocks at your door. It is rightly termed All-Healing, for there is scarcely a disease external or internal, that it will not benefit. It will be found the most useful as well as the cheapest family medicine in the world. I have used it for the last fourteen years with success without a parallel. I have used it for all diseases of the chest, consumption, liver and the most dangerous of internal maladies. I have used it in cases of extreme peril and hazard, involving the utmost danger and responsibility and I declare before heaven and man that not in one single case has it failed to benefit when the patient was within the reach of mortal means.

I never, in my recollection, had more than five or six among the thousands who have used it, say that it was not favorable to their complaint. On the contrary I have had hundreds voluntarily and in the warmest and most pathetic language speak in its praise. I have had physicians learned in the profession, I have had ministers of the gospel, Judges on the Bench, Aldermen and Lawyers, gentlemen of the highest erudition and MULTITUDES of the POOR use it in every variety of way, and there has been but one voice one united universal voice saying "McAlister, your Ointment is GOOD."

CONSUMPTION.

Of all diseases, we find this the most important and concerning which we meet with the most opposition. It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But we say once for all that this Ointment will reach the lungs *quicker* than any medicine that can be given internally. Every body consents to the fact, that if a healing medicine could be applied ON the lungs, there would be great hopes of recovery. The difficulty is to get the medicine *there*. Now the Salve has the wonderful virtue of extracting the putrid diseased humors from *all external sores*, by causing them to discharge. In like manner it operates upon *internal* affections by driving all the impurities through the pores to the surface. Thus with Consumption, if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them and expels them from the system.

It is the simplest and most rational process in creation, if one has *the medicine* capable of doing it. The All-Healing Ointment possesses this power to its fullest extent. I need not say that it is curing persons of consumption continually, although we are told it is foolishness. I care not *what* is said, so long as I can cure several thousand persons yearly. If this medicine was in the hands of some patent medicine brawlers, they would make an uproar through the country that would be insupportable.

SCROFULA, OR KING'S EVIL.

This disease is really inveterate, and hard to be subdued. It is generally seated in the side of the neck, behind the ears, and under the chin, yet scarcely any part of the body is exempt. It sometimes falls on the lungs, and produces consumption. It is a dreadful circumstance, that this disease is transmitted from parents to children.

The Salve will extract all the morbid matter, by causing the sores to discharge, and then let the *Solar Tincture* be used to drive it to one point, which done, a continuance of the Ointment will completely remove the disorder.—This is probably the safest and most effectual of any method. It should be adopted without a moment's hesitation.

ERYSIPELAS.

This complaint arises from impurities being driven out to the surface by means of the INSENSIBLE PERSPIRATION, and lodging in the cuticle, forms sores, pimples, &c., it being of a caustic, acrid putrifying nature. It only requires that it should discharge its virulent particles through the skin, and the difficulty will pass off. If suffered to remain, and [illegible] afterwards it is frequently fatal.

Let the Salve and *Solar Tincture* be used as in Scrofula, and the patient will soon get well.

SALT RHEUM.

This is another obstinate disease but can be cured effectually as the Scrofula. There is no difficulty in this disease.

HEAD ACHE, EAR ACHE AND DEAFNESS.

The Salve has cured persons of the Head Ache of 12 years standing and who had it *regularly* every week so that vomiting took place. It cured the wife [illegible] ed in my face for proposing such [illegible] who now would not be without it [illegible] farm in the state. If any man will [illegible] trouble to call I will give him [illegible]

Deafness and Ear Ache [illegible] like success, as also Ague [illegible]

COLD FEET.

Consumption, Liver Complaint, [illegible] chest or side, falling of the [illegible] other always accompanies [illegible] sure sign of disease in the system [illegible] feet. Some persons are [illegible] them warm and endure much [illegible] The Salve will restore the INSENSIBLE PERSPIRATION and thus cure every [illegible] able for this.

ASTHMA, TIGHTNESS OF [illegible]

If this disease be not [illegible] ed by a mal-formation of the [illegible] will cure it.

DYSPEPSIA.

One would suppose a Salve [illegible] this disease much but the All [illegible] ment will cure two, [illegible] dy will cure one.

SORE EYES.

The inflamation and disease [illegible] of the ball of the eye [illegible] the inutility of all remedies [illegible] the lids. The virtue of [illegible] reach the seat of the inflammation [illegible] little good. This Salve [illegible] ples will penetrate directly [illegible] infuse all its virtues upon the [illegible] pores will be opened, a proper [illegible] be created and the disease will [illegible] the surface. It [illegible] is as perfect and valuable [illegible] phthalmia.

SORE LIPS, CHAPPED HANDS, &c.

[illegible] the ONLY thing [illegible] hands when exposed [illegible] taken charm [illegible] complaints [illegible] cal measure.

PIMPLES ON THE FACE, FRECKLES, [illegible] SKIN [illegible]

Its first action is to expel all [illegible] crowding all the [illegible] lodge under the skin [illegible] the surface. It then heals [illegible] until the skin becomes as [illegible] child's. It throws [illegible] on the new white [illegible]

The reason for [illegible] Insensible Perspiration [illegible] the surface, which [illegible] enter condition as the [illegible] is put up in fine [illegible] for the toilet.

BURNS.

Life can always be saved [illegible] I have so many testimonials [illegible] complaint that I could fill a book [illegible] act in this in the U. States [illegible] without this Salve a single day [illegible] to burning burns alone. It extracts the [illegible] the place without a scar.

QUINSY SORE THROAT, INFLUENZA, CHILLS.

There is not an internal remedy [illegible] will cure these [illegible] so quick as [illegible] upon the [illegible] the neck and [illegible]

PILES.

The Salve acts upon the [illegible] There is an inflammation which must [illegible] the parts. The Salve [illegible]

HERNIA OR RUPTURE.

This Salve has cured [illegible]

WORMS.

If parents knew how [illegible] children taken away [illegible]

There is probably no medicine [illegible] worms [illegible]

CHOLIC, PAIN, OR INFLAMMATION OF THE BOWELS.

Let the Salve be rubbed in and hot flat irons, and all pains [illegible] cease.

SWELLINGS.

of the Joints, or weakness, or any affecting is so good as this Salve.

POISONS.

I never knew any thing so good as this [illegible] see the poison to discharge immediately [illegible] the slightest cause of alarm. Poison by animals, of burns, it removes when nothing [illegible]

TOILET.

I have it done up in fine order for [illegible] Although I have [illegible] little about it [illegible] yet I will set it against [illegible] may bring their Oils [illegible] the hair two cases to these [illegible] words, for I am ready to back it [illegible]

OLD SORES MORTIFICATIONS [illegible]

There is no effectual way [illegible] drawing off the putrid matter [illegible] would only endanger [illegible] Sores are an outlet to the [illegible] the only reason [illegible] the natural [illegible] such sores are healed up [illegible] some other outlet, or it will [illegible] reason why it is impolitic to use [illegible] in such cases. For [illegible] other avenues, to let off [illegible] consequences are always fatal. [illegible] was provided for such emergencies [illegible] no fear. It is perfect.

BROKEN BREAST.

Persons need never have a Broke[illegible] Salve will ALWAYS prevent it [illegible]

LIVER COMPLAINT.

Persons with this disease frequently [illegible] of the hands, face and other parts [illegible] think that it arises from the liver. [illegible] to remove these eruptions, proves the [illegible] of the disorder. Such must use it [illegible] then wear it on the chest, and the [illegible] go away.

ILLIAC PASSION OR GRIPING OF THE INTESTINES.

This disease caused the death of the late [illegible] Hugh S Legare, Attorney General [illegible] tary of State of the United States. It is the [illegible] up of the smaller intestines, and [illegible] ing of them. It is brought on by [illegible] evacuations, or from incarcerated Hernia [illegible] are awful, and unless help comes speedily [illegible] soon dies.

The All Healing Ointment would [illegible] of Mr Legare and all others under [illegible] ces.

All pains, gripings, inflammations [illegible] the bowels will be relieved if not effectually [illegible]

CORNS.

If the Salve is used according to [illegible] need never be troubled with Corns [illegible] by some traveling Mountebank, who [illegible] more mischief than he can possibly [illegible] this Ointment put on now and then will [illegible] them down.

Indeed there are few complaints that it [illegible] fit. It is a FAMILY Salve of untold value [illegible] as the sky rolls over one's head and grass [illegible] the earth, it will be sought after, [illegible] As there is no mercurial substance in it, [illegible] entirely of vegetables, it gives no ground for [illegible] sion. JAMES McALISTER & CO. 168 south st. New York

VOTES.

PRINTED VOTES for the County of Penobscot are now ready for delivery at this office—Will some energetic Whig in each town take it upon himself to see that his town is supplied Let this be done, and then let every Whig be sure and vote on the day of election

THIS EVENING!

Pass the word to your Whig neighbor to be present at the Whig Caucus this evening at the COURT HOUSE.

sept 6

Proceedings of the Whig Caucus.

The whig caucus was organized last evening by the choice of Gov Kent, Chairman and George W Ladd, Secretary

Voted to proceed to ballot for candidates for Representatives

The result of the ballotings was declared to be the selection of

WILLIAM PAINE
HENRY CALL

as candidates to be supported on Monday next to Represent this city in the legislature of the State

The meeting was addressed by the Chairman and others—the greatest harmony and good feeling prevailed, and the importance of every man attending the polls on Monday next, seems to be generally felt

Declination.

We received this morning the following note from Henry Call, Esq, nominated at the whig Caucus last evening as a candidate to represent this city in the legislature, declining, for personal reasons accepting the nomination

This information has been communicated to the whig city Committee, and they have issued a notice calling a Caucus this evening to nominate a candidate to fill the vacancy existing on account of this declination

The following is the letter received —

Mr Call's Letter.

To the Editor of the Whig and Courier.

SIR—I was not present at the Whig Caucus last evening, nor had I received any intimation that it was intended to make me one of the Candidates for the office of Representative to the Legislature, but having learned that the meeting made use of my name, for that purpose, I take the earliest and only opportunity I have to express my thanks for the honor intended, and at the same time to decline an acceptance.

I would not trouble you with this communication, but for the obvious necessity of the selection of another candidate, in season to concentrate the votes of the whig party, and thereby avoid the trouble and expense of repeated meetings.

HENRY CALL.

Saturday morning, Sept 6

☞ Judge Leigh, John Randolph's executor, is endeavoring to find a location for the slaves manumitted by the will of that eccentric man —A legacy of $25,000 is left to them. They do not wish to go to Liberia, and they cannot remain in Virginia. Judge L is seeking a place in a free State, where they may be placed without danger of molestation from invidious laws, or a still more invidious public feeling.

Examination of George Moore.

The examination of George Moore, seaman, charged with the murder of Captain Curtis of bark Warwick, is now in progress in this city before Jas S Rowe, Esq

Ruschenberger's Series of Natural History.

We have had occasion recently to examine a little work entitled 'Elements of Anatomy and Physiology,' prepared for the use of Schools and Colleges, by W. S W Ruschenberger, M D This is the first of a series of works upon the different departments of natural history, translated by Dr R from the French of Milne Edward and Archille Comte, Professors of natural history in the Colleges of Henry IV and Charlemagne

School books have of late years so multiplied, and so great is the competition between the different editors and publishers, that it is quite impossible to keep the run of them all; much more so, to decide upon their respective merits by a careful and thorough examination of the books themselves But when we received these books, above alluded to, it occurred to us, that they were upon subjects of a most interesting nature, and exceedingly important to be more studied and understood, than they generally are, and we resolved to give them a careful examination, before expressing our opinion upon their merits This we have done in respect to the work on Anatomy and Physiology, and the result we have arrived at is of the most favorable kind We think it is decidedly and incomparably better adapted to the end for which it is designed, than any other work of the kind with which we are acquainted In fact, we have rarely met any work designed for schools, that so fully meets our entire approval as this There is nothing superfluous in it, and yet it seems to contain all that is necessary to be said on the subject as an introduction to a more extended survey of this interesting department of natural history

We hope to see the subject of Physiology more attended to in our schools, than it has yet been It is certainly one of the most important branches that can occupy the attention of scholars, and yet it is most sadly neglected—Few know, and it is strange it should be so, the structure of their own bodies Most men have been content to let the Doctors monopolize this species of knowledge and perhaps one reason, and the chief reason for this, has been, that the subject has been so loaded with technicalities, that non professional men have been repelled from the study of it

We hope, however, that now, as the subject has been treated in a manner at once interesting, scientific, and adapted to the comprehension of the young, it will receive more attention from the public generally, and from teachers particularly and we recommend this little work of Doctor R to the notice of all, who are desirous of finding just the book that is needed on this subject for our schools

In speaking thus favorably of the work above alluded to, we do not, of course, mean to assert, that it is without its imperfections We are sorry to notice some little inaccuracies, especially in some of the plates, but this can, and doubtless will be, corrected in the next edition

This book is published by Grigg & Elliot, Philadelphia, and copies of it, and also, of others of the series may be obtained at the book store of William Lewis & Co in this city

Vermont Election.

The Boston Post gives returns from 13 towns, of the vote for Governor as follows Slade, (Whig) 1751, Kellogg, (Loco) 1243, Shafter, (Liberty) 324 The Whig Senatorial candidates are undoubtedly chosen in Windham and Windsor counties, and in 20 towns heard from for Representatives in the Legislature, the Whigs have nine majority

Probably no choice of Governor has been made by the people but the Legislature will be Whig, though smaller majority than usual

☞ The Georgetown (Ky) Christian Intelligencer, which has been announced as dying and dead, in consequence of the recent excitement produced by Cassius M Clay's paper, is alive and kicking The editor says in his last number —

"While our friends or foes are disposed to counsel or advise, we will hear them, and then judge for ourself, but whenever they undertake to *drive*, they will find (so help us God,) a *stubborn case* We wear upon our body no *fire arms*, neither sword nor dirk, nor pistol nor Bowie knife, our weapons are not carnal but spiritual "The truth is mighty, and must prevail

Halleluyah the Lord is our defence—He is our rock, and under the shadow of his wings, will we sweetly repose until the storm passes by."

☞ The Boston Journal states that the train of cars were about to run over a basket three miles on the other side of Waterford, N Y, on Sunday morning last, but although they were running at a faster rate than usual, the engineer stoped them time enough to prevent the basket from being crushed, and upon getting out to examine it, it was found to contain a *lovely baby, about five or six months old* It would be difficult properly to characterize the fiend who placed it there

☞ The New York Express says that a select committee of the Corporation applied, some time since, to Professor Silliman, to obtain his views as to the explosive power of saltpetre The result of the investigation was that saltpetre, of itself, was not explosive but that the gases arising from it were highly so

From Central America.

The New York Journal of Commerce states, on the authority of a Belize (Honduras) paper of the 16th ult, that a war had broken out between the States of San Salvador and Honduras

Melancholy Accident.

We learn from the New York papers that a portion of the southern wing of Tammany Hall, which was about being enlarged, fell unexpectedly on Wednesday afternoon, and buried five of the laborers in the ruins Two of them were killed, the others badly injured

Mortality among the Fish.

We learn that during the latter part of last week, immense fields of small fish, floating dead upon the water, were to be seen in the harbor They were of the kind called alewives, and in one space not less than an acre of them turned up their white sides to the sun What was the cause of this fatality is unknown Dr Leonard, with the commissioners of health, promptly employed the mud machines in getting them out of the way —Baltimore Sun.

☞ Our thanks are renewedly due to Mr Spear, Clerk of the Charter Oak for Boston and New York papers in advance of the mail

He is a Sailor.

We are informed that the brave and noble hearted man mentioned by us yesterday as having rendered essential service during the conflagration of the Steamship Bangor, is a seaman His name is John Doane a son of Ephraim Doane of Orrington, an accomplished navigator, who had prepared himself with all necessary new and extra nautical books and charts for voyages in a new Brig awaiting him at Belfast These articles together with his clothing he lost in the fire He rode home in the night shivering in his wet clothes after his fear of self forgetful heroism All honor to the son of the ocean for his bravery, and we would suggest that a proper public expression of regard could be well shown by a present of some useful nautical instruments

☞ The New York Herald notices the fact that the St John's N B papers state that there were, on the 12th of August, *fifty Spanish merchantmen* in that port It has been reported that these vessels were engaged in the fish trade between the St Johns and the ports of Spain and her colonies This is quite improbable taking into consideration the usual course of that trade, and on this account the number of Spanish vessels at the place is somewhat curious if not suspicious

☞ Seventeen hundred Independent Odd Fellows paraded in Philadelphia on Monday last, and laid the corner stone of a new hall on Sixth and Haines streets, oration by H R Kneass

A young man about 16 years of age, had his hand caught in a burring Machine, in the carpet mill, at Lowell, Wednesday forenoon, and before it was stopped, it had taken in his hand, and a part of his arm The arm had to be amputated a little below the elbow Name not given

An European Deluge.

The great river Vistula, and all its tributaries, have burst their banks during the last month, and have flooded a wide district of country, all the way from the foot of the Carpathian mountains, through Gallicia, Poland, and Prussia to the sea at Danzic The rains which produced these floods fell on the 17th, 18th, and 19th of July

New York Market, Sept 4.

There was a large leather sale this morning and prices were fully a half a cent per pound higher than last week's sales, quality considered

The sales of cotton are not important as the letters have not been received Opinion is not altered by the news

Flour is not essentially varied, 3000 bbls Genesee, part from store and part fresh, were taken at $4,75, and 1000 bbls just arrived, but not fresh, at 4 56 a $4,62 without distinction

Southern flour remains $4,75 a $8, and Brandywine is held at $5 No sales of grain Oats are quoted 43 a 44c

☞ The New Haven Courier states that a furious thunder storm passed over that city on Tuesday forenoon The lightning struck five different buildings, but fortunately no person was killed

Later from Texas.

The schooner Undine has arrived at New Orleans, bringing Galveston papers to the 23d ult which contain no authentic news of importance The Galveston News says that the Mexican army at Matamoras is said to be 8000 strong, and that the Mexicans are busily engaged in fortifying that city But on the other hand the Civilian declares that from the best information the number of troops at Matamoras does not exceed 1500, that they are badly supported, and not more efficient than Mexican soldiers usually are This account is the most probable of the two At all events, at the latest dates from Texas no certain information of the advance of the Mexicans had been received It all seems to be in classical language, *vox et praeterea nihil*, or, as Shakspeare expresses it,—

"Full of sound and fury signifying nothing "

The captain of the Undine reports that all was quiet at the United States encampment—General Taylor had succeeded in removing all the troops of the third and fourth regiments of infantry and a large proportion of the public stores to Corpus Christi where his head quarters are at present established A breastwork of earth had been thrown up and nearly completed A few pieces of ordnance procured in the town were brought into requisition The United Dragoons, under command of Col Twiggs, had crossed the Colorado, and were on their way to Corpus Christi—all well A company of Mexican tracers were expected in the next day The location of the encampment is salubrious and pleasant, being immediately upon the beach of the bay, and open to the sea breeze The health of the camp was good

The Convention was still in session, but it was anticipated that their labors would close on the 23d of August

Syria.

The intelligence from Mount Lebanon is up to the 11th of July The accounts given by our missionaries of the scene of devastation and carnage attending the war between the Druses and Maronites, are truly afflicting The number of villages burnt and destroyed is very great In the border section particularly, scarcely a single village belonging to either party has escaped—In one district it is ascertained that no less than 3000 houses have been burned In one village—and somewhat remote, too, from the seat of war,—78 persons are known to have perished, and the estimated number is much higher The frontier is now guarded by Turkish troops, but the country is far from settled There is, in fact, no government on Mt Lebanon, at the present time, every man doing as seemeth good in his own eyes The Druses and Maronites are mutually jealous of each other, and instead of occupying their villages together, as they were wont to do, they are now encamped apart, ready to renew hostilities at a moment's warning—The Turkish Divan and the Foreign Ambassadors are reported to be in consultation about measures for establishing the peace of the country, and hopes are entertained of their success, but fears, after all, prevail

Notwithstanding the unsettled state of things in that country, our missionaries have resumed their labors, and with encouraging prospects—Their congregations are numerous, and their schools are well attended More Druses attend than before the war Should peace be permanently established, the missionaries anticipate an encouraging and ample field of labor.

Proposed Invasion of New Mexico.

A proposition is seriously entertained to raise a volunteer force at St Louis for the purpose of making a descent upon Santa Fe, in New Mexico Major Gen. Lee has published an address to the Missouri militia, in which he declares his readiness to raise and lead a body of five thousand volunteers for this object. Other leaders deem a small force sufficient It appears to be anticipated that the invading party would meet as many friends as opposers at Santa Fe A paragraph which appeared in the St Louis Republican of the 22d ult shows that a good deal of progress has been made in organizing the expedition It is probably expected, from the example set at New Orleans in calling militia into the service of the United States, that these volunteers will be taken into service immediately.—Lowell Courier.

City Affairs.

IN COMMON COUNCIL, Sept 4, 1845

Present—Wm Paine, S C Hatch, J. A. Cushing, J. W Boynton, J Smith, R. R. Haskins, J R. Macomber, J S Sayward, H Jones A Walker, T H Dillingham,

Report of Street Engineers on laying out Hancock street recommitted in concurrence

Petition of John Darrow et als for plank side walk on Union street Read and referred to the joint Standing committee on streets and highways and sent up for concurrence

Ordered, That the orders directing the street Commissioners to make Somerset street, and Columbia street, also, orders directing him to lay sidewalks on Hancock, Washington, Fore, and Hudson streets, be, and the same are hereby suspended until after the first day of April 1846 Passed in concurrence

Report of city Solicitor on subject of York street accepted in concurrence The Solicitor states that "During the Late term of the Supreme Judicial Court in this county two actions in the name of Messrs George and Isaiah Stetson and John Fiske Esq were entered by consent of parties, to try the question of the public rights to the part of York street West of Exchange street It was the understanding that if we could agree upon the facts the case should be argued in writing and presented to the Court for their decision Soon after this arrangement was made I procured a copy of the city plan on which York street is laid down, to be made, to be used in the case, and also copies of such deeds and papers as I thought would be wanted in the arguments I have always been ready and have done every thing I could to get the case before the Court

Whether anything more will be done this season to prepare and argue the cases, it is impossible for me to say The Plaintiffs having possession of all that parcel of land in said street they want for immediate use, I think it cannot be for their interest to hasten a decision of the question It depends entirely on the Plaintiffs and their counsel to say whether the cause shall be prosecuted in the manner contemplated when the agreement with them was made to enter the actions in Court I am ready as I have been at all times since the commencement of the actions, to facilitate the object in view, according to the best of my ability. Adj to 30th inst at 7 o clock P M

Cheaper Yet.

We notice that the Steamer Portland to leave this city for Boston on Monday has reduced her fare since our last publication, to one dollar fifty cents to Boston The hand bills about town begin to look very much like an active opposition between the Penobscot and Portland If people dont travel now it is because they wont and not because they cant

Facts for a Thousand Millions.

BY ELIHU BURRITT

To the Editor of the Whig and Courier

Will you again allow me to fill some spare corner of your paper with a few facts deduced from the bloody history of human violence — The newspaper press has long perpetuated Reminiscences of War, seasoned, to the ardent fancy of youth, with the gorgeous heroics of patriotism and poetry and romance I should be exceedingly grateful to your courtesy and you might lay mankind under some obligation to this bland quality of Christianity, if you would occasionally admit into your columns some of those Reminiscences of War calculated to inspire both the young and the old, of this enlightened age, with an indomitable abhorrence of all that savors of the spirit, or tends to perpetuate the existence, of that sanguinary monster These unpoetical reminiscences are living, without any association with romance of the heroics of the imagination, in the sleepless misery of millions of your fellow beings—the burning inheritance of War The down crushed poor of Christendom, with the bleared vision of their starved intellects, are groping for the cause of their poverty and degradation, and grasping it in its slow revelation

They have discovered, in the monstrous lineaments of War, the pampered Gorgon which forages has fed at the veins of Labor, and is now eating out the substance and subsistence of their bodies and souls, and enslaving them to want wretchedness, and hopeless ignorance They appeal to you to indict this horrid cannibal, War, before the tribunal of Humanity, and enter there the evidence of its savage atrocities perpetrated on the race, and written in lines of fire and rivers of blood around the globe

Here then, Mr Editor, are a few of the reminiscences of war, entirely shorn of poetry — They are bloody witnesses to the truth, and let them testify In the periodical butcheries in the human family, the following hecatombs have been offered up to that god of battles which both Christians and pagans have worshipped with the same devotion

Loss of Life in the Jewish Wars,	25,000,000
By Wars in the time of Sesostris,	15,000,000
By those of Semiramis, Cyrus and Alexander,	30,000,000
By Alexander's Successors,	20,000,000
Grecian Wars,	15,000,000
Wars of the twelve Caesars,	30,000,000
Roman Wars before Julius Caesar,	60,000,000
Wars of the Roman Empire, Turks and Saracens,	180,000,000
Wars of the Reformation,	30,000,000
" " Middle Ages, and 9 crusades,	80,000,000
Tartar and African Wars,	180,000,000
American Indians destroyed by the Spaniards,	12,000,000
Wars of Napoleon,	6,000,000
	683,000,000

The above is a mere extract from the bloody statistics of glorious wars, one chapter in the annals of the violence, crime and misery that have followed in the foot-prints of the GREAT DESTROYER The loss of souls is entered where human eyes may not read the list Dr Dick estimates the number of those who have perished directly and indirectly by war, at *fourteen thousand millions*, or about *one tenth* of the human race Edmund Burke placed the number at Thirty-five Thousand Millions Taking the estimate of Dr Dick, and assuming the average quantity of blood in a common sized person, the veins of those fourteen thousand millions would fill a circular lake of more than *seventeen miles in circumference—ten feet deep;* in which all the navies of the world might float! Supposing these slaughtered millions to average, each, 4 feet in length, if placed in a row, they would reach nearly 443 times around the sun Supposing they averaged 130 lbs each, then they would form a globe of human flesh of nearly a mile in diameter, weighing 1,820,000,000,000 lbs.—14 times more than all the human beings now living on the globe!

Worcester, Aug 23, 1845

HUNT'S MERCHANTS MAGAZINE, September 1845

The September number of this Magazine has been received The following table of contents speaks volumes in favor of the practical character of the work and of its devotion to the great every day interests of labor and capital

The Government and the Currency Chapter 1, Section 2—Remedies of the Evils of Over Issues—Expense of Suppressing entirely both Bank-Notes and Bank Credits—Expense of Raising the Minimum Denomination of Bank Issues—To what extent it is desirable to suppress Bank Issues—What the Expense, etc, etc—By Henry Middleton, Jr of South Carolina

To the Honorable Justices of the Supreme Judicial Court to be begun and holden at Bangor within and for the County of Penobscot on the first Tuesday of July A D 1845

RESPECTFULLY represents Horace Jenness of said Bangor, that he is seized in his own right in fee simple of an undivided half part of a certain lot of land situate in township number six in the third range of townships north of the Lottery land in said County of Penobscot and bounded as follows viz —Beginning at a cedar tree in the south line of the township and being the south west corner of public lot numbered one marked (* see note below)—thence north eighty seven degrees thirty minutes west two miles on the south line of the township to a hemlock tree standing on the same marked* thence north two degrees thirty minutes east one mile and twenty four rods to a spruce tree on the east line of the tract of land set off to Joseph P Bradbury marked*, thence south eighty seven degrees thirty minutes east two miles to a spruce tree on the west line of public lot numbered three marked*, thence south two degrees thirty minutes west one mile and thirty rods by the west line of public lots numbered one two and a part of three to the bound first mentioned containing thirteen hundred and eighty eight acres more or less, that he holds said lot as tenant in common with Norman B Judkins and John D Judkins both of township number 7 third range north of Bingham Penobscot Purchase in said County of Penobscot—that he cannot possess, occupy and improve his said half to any advantage while the same is in common and undivided as aforesaid, but wholly loses the profits thereof

Wherefore he prays this Court to cause partition thereof to be made, and his aforesaid half to be set off and assigned to him in severalty

By JAS S ROWE, his Att'y

STATE OF MAINE.

PENOBSCOT ss—

Supreme Judicial Court July Term, A D 1845

ON the foregoing petition ordered that said petitioner give notice to all persons interested, of the pendency of his said petition by publishing a true and attested copy thereof and of the order of Court thereon in the Bangor Courier, a newspaper printed in Bangor, in said County of Penobscot three weeks successively, the last publication to be thirty days at least, before the next term of said Court to be holden at said Bangor, on the fourth Tuesday of October next, that all persons interested may then and there appear and shew cause, if any they have, why the prayer of said petitioner should not be granted

Attest WM T HILLIARD, Clerk

A true copy of the petition and of the order of Court thereon

THURSDAY and FRIDAY 4th and 5th of September.

At Bangor on Oak street, in rear of Penobscot Exchange

The proprietors presume that the popularity of their company and matchless collection of steeds, are known to the citizens of this community inasmuch as a long stay in a neighboring city was marked with great fortune and the favored comment of every Press. The following are some of the performers connected with this Magnificent Company

MONSIEUR CASSIMER!

The greatest Drummer in the World! and styled by Louis Phillippe who made him chief drum major of the French Army the "first drummer of Europe." His professional skill has astonished many thousands who flocked to hear him in Philadelphia, New York and Boston, and is displayed in beating upon TWELVE DRUMS at once in a rapid and elegant manner

The names of the principal are—OSCAR R. STONE, the far famed Equestrian of the west, who stands alone at the head of his profession, and is pronounced not only by the critical public, but by all, to be the greatest rider in his peculiar style, the world ever produced. The wonderful achievements of this great artiste, have gained for him a name never to be erased from the memory of a generous public. G W SARGENT, the famed Shakspearian rider. The performance of this distinguished individual, are pleasing, amusing and instructive, and show at once that he is not only a finished equestrian but has great dramatic talent. This personation of Falstaff, Shylock and Richard III, are beyond criticism. W W HOBBS—His youthful equestrian and vaulter who has become the general admiration of the many thousands who have witnessed his daring and successful feat of throwing a backward summerset from feet to feet while his horse is at full speed, is the only performer who has been successful in this great feat

JOHN GOSSIN The Clown, surnamed the "Grimaldi of America" is not only the best Clown in the country but has scarcely his equal as a general performer. Mrs GOSSIN, the very beautiful and daring female equestrian, D MINNICH a finished vaulter and slack rope artist, C CHAMPION the celebrated youthful double leaper and double somerset thrower; VICTOR PIQUET the unrivalled posturer, Master B STEPHENS the equestrian prodigy, ALONZO HUBBELL the American Sampson and the NUBIAN MELODISTS, a band of accomplished African Singers—a mighty host of geniuses never before equalled in New England

Among other exhibitions mentioned in the programmes and posters of the Circus will be performed an entirely new and sublime Spanish spectacle, with splendid steeds gorgeously caparisoned called

THE ANDALUSIAN ENTRY!

This grand and majestic piece has been produced with great care and expense

N B. Doors open at 2 and 6½ o'clock Performances to commence at 2½ and 7 o clock

☞Prices of admission—Boxes 25 cents Pit 12½ cents Children half price to Boxes, no half price to Pit

NOTICE.—For particulars in the performances please see large bills, programmes, and poems circulated in this place

☞The Cavalcade will arrive in the town on the above morning, and make a Grand Procession through the principal streets, accompanied by the celebrated Brass Band in their splendid carriage drawn by six beautiful Arabian Horses driven in hand d&w aug 28

NOTICE.

THE undersigned contemplating a removal from the city, has disposed of his stock of Books and Stationery, and relinquished the business and stand to

Messrs LEWIS, STANWOOD & DAVIS,

to whom he would recommend for their patronage, his former friends and patrons and the public generally

All unsettled accounts either due from or owing to the subscriber will be attended to by him for the present at the old stand No 3 Smith's Block, next door to the Post office E F DUREN

Bangor, June, 23 1845

The undersigned have formed a co-partnership under the name of

W. LEWIS & CO.,

and have taken the stand formerly occupied by E F. DUREN (one door west of the Post office) where they will continue the Book Business in all its branches

They have connected with their establishment a BOOK-BINDERY. All orders for binding, will be executed with despatch

The subscribers hope by their exertions to merit a share of public patronage.

WILLIAM LEWIS
WILLIAM F STANWOOD,
JAMES N DAVIS

VOTES.

PRINTED VOTES for the County of Penobscot are now ready for delivery at this office — Will some energetic Whig in each town take it upon himself to see that his town is supplied Let this be done, and then let every Whig be sure and vote on the day of election

WHIG CAUCUS.

The Whigs of Bangor are notified that a meeting will be held at the City Hall, on FRIDAY EVENING next, at half past seven o'clock, to nominate two Candidates to represent the City of Bangor in the next Legislature, and for the transaction of such other business as may be deemed advisable.

Per order of the City Committee.

sept 2

Nomination of Representatives.

It should be borne in mind by every Whig in the city that there is to be a meeting this evening at the City Hall for the purpose of nominating two candidates for Representatives to the State Legislature It is important that there should be a full meeting and a full expression of the whigs,obtained in order that the men selected may be chosen at the first ballot Let every whig determine that he will be present,and give his voice in favor of the men he would prefer, and all arrive at a harmonious and satisfactory result. There is, very properly, great force in the primary meetings for nomination of candidates, and the meeting this evening should be generally and fully attended We hope that every Whig who fails to attend the meeting this evening for the nomination of candidates will agree to be governed by its decision, and give the nominations a cordial support at the polls on Monday next

Is your Name on the List?

The Board of Aldermen will be in session to day and to-morrow for the purpose of correcting the list of Voters See that your name is on Let this business be attended to before to morrow noon, that no unnecessary work be left for Monday, for that day should be occupied with its appropriate duties of voting and getting out to the polls those who may need urging, and those unable to attend without the assistance of friends

Cheap Travelling!

The Fare from this city to Boston, by the Steamer Portland once a week and by the steamer Penobscot twice a week is now put at the low rate of two dollars. This will be an additional inducement to the people in the Bay State to visit their friends in Maine and take a peep at the doings of the, as Doctor Holmes would say, "up easters." Every body is wide awake in Maine and it will be worth while for all who are not acquainted with them, as well as all their old friends, to avail themselves of the low fare and make a visit.

Declination.

We are requested by Waldo T. Pierce Esq whose name has been mentioned in our columns, by a correspondent, as a suitable candidate to represent this city in the Legislature, to say that he does not wish his name used in connection with this office, as it will be quite impossible for him to attend to the duties of the office if elected

The Time is Short.

The annual election of State officers occurs on Monday next. The time is indeed short and so far no efficient preparation seems to have been made by the whigs. The responsibility of this election falls eminently upon the people — If the whigs individually feel the responsibility resting upon them in this election they will go forward of their own accord and vote for the whig candidates and elect them But if reliance is placed upon the movements of Committees, upon organization, upon the efforts of a few to, do the business of conducting the campaign, then nothing will be done worthy of note or commendation. We trust the mass of the people do feel the importance of the election and that they will from their in-dwelling patriotism appear at the polls and discharge the duty of Republican Freemen If the ballot is abandoned by the mass of the people, then our precious civil and political liberties are in peril

Devote the remaining time to the election — An hour now devoted to the cause of your country may save weeks of regret by and by — Whatever is done must be done quickly Think of your duty Think of the demands of patriotism Act like Freemen Delay not an hour

A Brave and Noble-hearted Man.

We learn that at the recent examination of the Directors of the steamship Bangor, mention was made of the conduct of a brave and noble hearted man, whose name has not yet been ascertained As the Bangor, enveloped in flames and smoke, was approaching the shore and fears were entertained for the safety of those on board, one of the passengers jumped overboard and swam to a large pleasure boat—which lay moored in the cove into which the steamer ran,—took out his knife and cut her cable, and by his own exertions, alone,brought the boat alongside the steamer the moment she struck the shore, and rescued about thirty women and men who were in imminent peril This heroic exploit called forth the highest commendations from Capt Parker and several others who witnessed it, and when the excitement and anxieties were passed,and they sought for the man to tender him personal thanks, he could not be recognized, nor could his name be ascertained His truly noble conduct being only equalled by his modesty,has given an interest in him among our people and they are anxious to learn his name Cannot some friend of his give the name to the public and thus gratify every admirer of generous heroism

In connection with this subject we will mention another fact highly honorable to our common nature and eminently creditable to the person named After the passengers of the Bangor had arrived at Castine the keeper of the Hotel there, Mr Hooper, generously offered them the hospitalities of his house and furnished them with an ample and highly acceptable breakfast, refusing to take pay of any, saying they had all suffered and he wished to contribute his portion in aid of each

☞ We learn that several suits have been commenced against the owners of the Steamship Bangor, as common carriers, for the loss of goods on board of her at the time of her destruction by fire These suits having been commenced, the Directors may not feel under obligations to make, at present, a public statement of the result of their recent examination, although we understand that the examination was very thorough and that every precautionary measure was adopted to prevent such a catastrophy, in the command of the officers of the boat It is stated that the bulk-head, at the end of the boiler, where the fire took, was twelve inches from the boiler head and was covered with tin This distance was supposed to be amply sufficient But as the whole matter is to come before a legal tribunal, the public must await that issue for a particular statement of facts

New Steam Arrangements.

The Steamship Bangor was burnt last Sunday and yesterday we advertised that arrangements had all been completed to have the steamer Portland take her place on the route between this city and Boston to start from this city on Monday next This is an instance of promptness the route only being interrupted for one trip — I will be seen that John W Garnsey Esq — Agent of the Charter Oak is the Agent for the Portland under the new arrangement

☞ Candidates for admission to the Select School will be examined at the School-room to morrow morning at nine o'clock

Penobscot Agricultural Cattle Show.

Exhibition and Fair will be holden at [Ke]nt's Village on Wednesday the first day of October, A D 1845 The Trustees take this opportunity to call the particular attention of the Farmers and Mechanics to the approaching Fair of the Penobscot Agricultural Society

Although you may not be able to present a specimen of so abundant a crop of some kinds of produce as usual, yet we would say to you do not be discouraged, but meet together on that occasion every man of you and produce the best you have

As information, and improvement is, or ought to be, what we are all striving for, we would suggest the propriety of every farmer's examining thoroughly his wheat and potato crops in particular and ascertain, if he can, what species of wheat will best resist the weevil and rust, when the best time to sow it, and all other particulars connected with the growing of wheat Also what species of potatos were affected the least both by rust and rot, and if possible, suggest some remedy for either

We do not request this barely for the sake of saying *something*, but we mean what we say, and doubt not if our suggestions are carried into effect, and you meet on that occasion, and bring together the result of your investigations that we shall have the pleasure of being mutually and individually benefitted

We hope the Ladies will not fail to help make up the interest of the day, not only by their presence but by numerous specimens of their ingenuity and industry.

For the particular regulations to be observed at the fair you are refered to hand bills which will be struck off and circulated in all parts of the county; as also the list of premiums which have been once published in the county papers

JOHN CUTLER, ABRAHAM SANBORN, SAMUEL BUTMAN, } Trustees of the Penobscot Agricultural Soc'y.

Sept 1st, 1845.

The Broken Vow.

We have received from Messrs W. Lewis & Co. a beautiful volume of Poems by Amanda M Edmond, and published in charming style by Gould, Kendall and Lincoln Boston

We have not had time to read many of the poems in this work, but the few we have read and the general aspect of the work pleases us so well that we wish to call the attention of our friends to the fact that the work has been received in the city and is now on sale at Lewis & Co's Bookstore

Beautiful and Useful Books.

We have received copies of several beautiful books from Mr Bugbee We infer from this that he has recently received a choice selection and recommend our friend to call in and examine his collection.

One of the little gems he has laid upon our table is a meritorious work by Mrs E Oakes Smith—Stories for *Real* children Parents will find this a gift book of much value

What is a Job?

To the Editor of the Whig & Courier

I notice in the Democrat of this week an article, headed, "The Lexington Affair" —with your permission I would like to propound a few questions to the Editor of that paper He begins by sneering at the "heroics" of the Whig, and asks if those who attended the meeting, which resulted in the prostration of law and the removal of a free press to another State, could be called mobocrats?

We will bring the matter a little nearer home, and let the Editor answer for himself

We will suppose that in this good city of Bangor, there were no Democrats,or very few—that the people were nearly all Whigs or Abolitionists The Editor of the Democrat, having the good of his country and his fellow men at heart, determines that this shall no longer be so He establishes his paper—he exposes the fallacies of whiggery and abolitionism—he pictures the evils that they are bringing on the country—the injustice of the tariff, which makes the rich,richer, and the poor, poorer, the injurious tendencies of their other views,—on the other hand he shows the beauties of Democracy, and the glorious results that will follow the adoption of democratic measures The Whigs and Abolitionists begin to be "excited" "This will never do, say they, "if this fellow is suffered to go on, our parties are ruined, the people are already deserting us—he must be stopped The Editor of the Democrat hears that attempts will be made to put down his paper—and like a brave man he determines to resist, and takes measures accordingly Unfortunately he is prostrated by disease, a burning fever confines him to his bed His enemies, brave fellows seize the favorable moment A meeting of *respectable citizens without distinction of party*, is convened, and a demand is made upon the editor to discontinue his paper He replies, hurling back scorn and defiance upon the traitors to the laws and constitution of their country—(Query 1st Do the laws, Mr Editor, or the constitution, allow the privileges of speech, and the press to a minority?)

He says, "traitors to the laws and constitution cannot be deemed respectable" (Query 2d — Are they respectable?) Finally, he denies their power and defies their action. But he speaks to *brave* men! Well knowing that he can make no resistance, stretched as he is upon a sick bed, they call in the people of the adjoining counties Whigs and Abolitionists, *respectable men —all* A leading Abolitionist proposes a resolution, which is passed, that they will stop the Democrat, *peaceably if they can, forcibly if they must*

A committee is appointed,—sixty men of both parties—in order to carry the resolution into effect—whether it is done peaceably or forcibly, depends upon the editor's making any resistance or not But whatever his inclination may be, he knows he cannot resist and to save his press from destruction, consents to deliver it up

It is taken and *carefully* boxed up, sent to New Hampshire, the only place where whigs and Abolitionists allow democratic sentiments to be spoken, and there the editor is at liberty to follow it whenever he is able But this is not all, as the leading Whig paper in the country says, in announcing these proceedings, "two birds are killed by the same stone" There is a religious paper published in Maine, the editor of this paper is not a democrat, on the contrary he denounces democracy, but he dares to sympathize with the editor of the Democrat— and condemn the men and the measures, the purposes and the action, of the Bangor convention. His paper too is stopped The same excitement compels its suspension (Query 3d — is this "excitement only another name for moral suasion?

And finally Mr Editor, are these men "mobocrats?" these men who have driven you from the State, and compelled the suspension of a religious paper, merely because it condemned their unlawful and cowardly act? "But," says one, "there was no riot" Please sir, to turn to the Revised Statutes of this State for the definition of that word Was the act which they assembled to do, a lawful or unlawful one?— Was not the paper stopped by force? Were you not compelled, Mr Editor, to deliver up the key of your office? But "there was no violence, no blood shed" Why? because they were opposed by one man, and he confined to his bed by fever How wonderful that there was no bloodshed? If these fellows had been resisted and they had been obliged to use force, it would have been a mob, but as they were not resisted, the conclusion is that it was not a mob! Good logic this! But the strongest argument against this meeting being a mob, is, that 44 whigs were on the committee, and that J B. Clay the son and partner of Henry Clay, was an active member Mr Editor of the Democrat is not this argument insurmountable, in *your* opinion?

If Henry Clay himself had been there, we may presume, that there would not have been a shadow of doubt in your mind that these men were peacefully pursuing a lawful object! If these men were not mobocrats, please give a name to their offence, Mr Editor, if there was any offence, and let it no longer be deed without a name.

A Good Man

I would walk
A weary journey, to the farthest verge
Of the big world, to kiss that good man's hand,
Who, in the blaze of wisdom and of art,
Preserves a lowly mind, and to his God,
Feeling the sense of his own littleness,
Is as a child in meek simplicity.—H. K. WHITE.

From Mexico.

By the Ann Louisa at New York, letters have reached Washington, from which the Union of Monday publishes the following extract. Though dated Vera Cruz, Aug 2, (not so late as other news by three days) this extract is worth giving

"I deem it my duty also to state that I have just seen a letter from the British consul,to his house here, wherein he observes that orders have been issued and approved by the war committee, for the troops on the frontier to take up their position ten leagues in advance of the Rio Bravo, and if attacked, to defend themselves," &c &c

Successful Enterprise.

We learn that the schr Francis Amy arrived at this port yesterday, having on board about *twenty-five thousand dollars* in specie, recovered from the wreck of the Spanish ship San Pedro, sunk on the Spanish Main The money is the property of the "San Pedro Company" of this city, which a short time ago fitted out an expedition to search the sunken ship by means of a diving bell —Balt Sun

☞ Our efforts to procure and publish a full shipping list is well appreciated by those who understand the value of such intelligence The Boston Advertiser of Monday after copying our shipping list of Saturday thus remarks —

Business of Bangor.

The Shipping List of the port of Bangor contains the names of sixty vessels, mostly schooners, which arrived there on Friday last, and several on the following day Of those which arrived on Friday, 22 were, from Boston, 7 from Salem and Newburyport, several from other ports in this State, two from New York and one from Philadelphia

John Fitch.

This is the name of an American citizen,which at present, is but little known to his countrymen, but which, at no distant day, may take a high rank among the benefactors of the age John Fitch was the first person known to have erected, and navigated a vessel by means of the steam engine Nothing is more common than the inventions of one man being carried to the credit of another, it is an every day occurrence to find the failure of one man's project taken up, and made to operate successfully by another A screw, a fly wheel, a piston wrongly constructed by one, may be successfully applied by another We know not whether the world is to blame for this, or to be charged with ingratitude and neglect, they are accidents which attend life, the errors and mistakes of genius Every where the genius of Fulton is applauded,and his name will go down to posterity with honor, not so much from being the first who applied steam to the propelling of boats, but the first who did so *successfully* He obtained the reward, and in one sense the reward to which he was entitled Posterity, however, owes an act of justice to the memory of John Fitch, which, though late,ought to be paid, as the first citizen who actually applied steam to the propelling of vessels in this, or any country, and when we look at steam navigation as it exists, steam ships, steam frigates and steam batteries, and the vast changes in commerce and war, brought about by steam, justice to John Fitch should be no longer postponed — He was born in Connecticut, was a watchmaker in Trenton, a soldier of the Revolutionary war, a surveyor of public lands in the West, a poor hard working, ingenious man, whom all considered, as men of genius are, *visionary* In 1785 he made a model of a steamboat with perfect steam machinery He tried wheels first but they were badly constructed, and he substituted paddles, which worked rather better and then he regarded his model, examined his empty pockets, and saw before him in visions of hope, the great results which hereafter would grow out of steam navigation He petitioned the Continental Congress for aid They had no money to give to such experiments He begged the Legislature of Pennsylvania to assist him, without effect He talked to the Western members of Congress of the great waters of the Mississippi, and the lakes covered by steamboats,and conveying the produce of that section of the Union to the ocean, but they considered it chimerical and wild He wrote to Dr Franklin, and boldly contended that the sea would be navigated by steam, hereafter, and earnestly implored co-operation and aid, but when a man strikes at something bold and high, promising new and extraordinary results, talked of immense revolutions in trade, immense expedition in traveling by a new process the old and long standing impression of weak and visionary projects met him at every turn, and finally his condition was hopeless

At length he drew and engraved a map of the North Western territory of the United States, and struck off the sheets on a cider Press, and by this he made $800, and in 1787 formed a company of 40 shares, and commenced a boat of 60 tons, which, after immense difficulties and delays, rough machinery, and small cylinders,was found only to go again st wind and tide at the rate of *three* miles an hour This was no failure, it was a triumph, and Fitch doubled his shares, constructed a new engine, built a new boat called the Perseverance, and on the 12th of October 1788,the boat ascended the Delaware to Burlington, with thirty passengers, and made the passage in three hours, and twenty minutes and afterwards made 80 miles in one day There is near us, as we write, a gentleman who stood on the wharf, and saw the boat ascend the Delaware *This was the first successful application of steam to the propelling of vessels* Fitch,therefore, was the original inventor, and to whom all honor was due

In 1788, after great exertions, he completed a larger boat, but it took fire, and burnt to the water's edge In 1791, he obtained a patent, and a committee of the New York Legislature in 1817 said that Livingston and Fulton's boat was substantially the invention of Fitch He went to Europe, obtained no encouragement, worked his passage back as a common Sailor, and pennyless and hopeless,he poisoned himself in Kentucky in an obscure tavern, and was buried in a corner of the yard, without a stone to mark where the remains lay of the first discoverer of the application of steam to propelling vessels He desired to be buried on the banks of the Ohio, and exclaimed in apparent distress of mind, when deliberating on his hard fate "Why these earnest solicitations,and excruciating anxieties? why not leave them, and retire to rest under the shady elms on the fair banks of the Ohio, and there at my course but sweet bread of industry and content, and when I have done,to have my body laid in the soft,warm and loamy soil of the banks of the Ohio, my name inscribed on a neighboring poplar, that future generations, when traversing the mighty waters of the West, may find my grassy turf" And still later,he breaks forth in the same poetical strain, referring to the position of his grave, and hoping that it may be made on the shores of some of the waters of the West, in order that the "song of the boatman may enliven the stillness of his resting place, and the music of the steam Engine, sooth his troubled spirit" Fulton has the Eulogy, the fame, money—Fitch the real inventor, is only now to receive the monument over his grave, which is proposed to be done in Kentucky We see in this, the instability of human affairs, the little security which genius can afford, the doubtful regard which merit claims, and the lesson it teaches, is this —always distrust you own judgment on the possibility of success of any invention, and never pronounce that man who rests his plans on reasonable grounds of success

An Old Bible.

We understand that Captain John Morgan presented a Bible to the Albany Institute which was printed at Frankfort, Germany, in 1599 — Albany Journal

A young fop, about starting down to New Orleans, proposed to purchase a life preserver, "O, you'll not want it," suggested the clerk—"*bags of wind won't sink*!"

The Markets.

Beef.— Provision dealers are determined that the butchers shall *knock down* a little more; but some of our tradesmen will "*tan their hides for them*", if they do!

Pork —In anticipation of a brisk business next fall, inspectors *bristle* up, and demand a *fat* salary It is said that a re-*tail*er, upon opening a barrel of western the other day, discovered several new *kinks* in the art of packing

Soap,—Numerous small lots have lately changed hands—holders doing a *neat* business One of our barbers was "all of a lather" one day last week, upon finding that *he* had been shaved in buying therewith to shave his customers

Candles —Tallow has a tendency to wax—soft, a few lots mouldy dispose of at a *light* discount

Grain —Our dealers are *mealy* mouthed—most of them have been pretty well *corned* for a month last—but prices improving, they have doffed their *wry* faces, and seem to feel their *oat*s —Boston Post NED

The Skin.

It has been ascertained by investigations with the microscope, that upon every square inch of the surface of the human body there are a thousand pores or small holes, and if the whole surface be estimated at sixteen square feet, which is supposed to be a fair estimate of a medium sized person, it will be found to contain the almost incredible number of 2,304,000 pores and add to this fact, that five eigths of all taken into the stomach, both solids and fluids, is eliminated or cast off from the body through these holes or pores, and we can form some idea of the immense injury which the body must sustain, especially during the summer and warmer portions of the year, from neglect to keep the skin in a clean and healthy condition, by means of proper exercise, ablutions, baths, &c And this injury falls heaviest on and is felt most by the sedentary and confined, who seldom if ever get up a healthy action in the system by active bodily exercise, while the farmer and other laboring classes, who sweat much and often, and keep the skin clean and the pores open, avoid much of the evil and many sufferings, which must inevitably befall the sedentary and confined, without constant and energetic means on their part to counteract the influence of such habit

Origin of Pledging each other in drinking.

Pledging each other in drinking is a custom which took its origin from the time when the Danes were in England Those ferocious barbarians used to stab natives at their festivals, and they invited to their festivals those island chiefs whom they wished to put out of the way either by the dagger or by poison The consequence was that no natives would drink at a Danish festival unless his entertainers, or one of them, would "pledge" himself in a cup of wine beforehand, and even among these barbarian invaders this pledge was deemed sacred

[F]rom Chambers' Edinburgh Journal

Light for all.

BY J GOSTICK

You cannot pay with money
The million sons of toil—
The sailor on the ocean
The peasant on the soil
The laborer in the quarry,
The hewer of the coal,
Your money pays the hand,
But it cannot pay the soul

You gaze on the cathedral
Whose turrets meet the sky,
Remember the foundations
That in earth and darkness lie;
For, were not those foundations
So darkly resting there,
Yon towers could never soar up
So proudly in the air

The workshop must be crowded
That the palace may be bright,
If the ploughmen did not plough,
Then the poet could not write
Then let every toil be hallowed
That man performs for man
And have its share of honor,
As part of one great plan

See, light darts down from heaven,
And enters where it may,
The eyes of all earth's people
Are cheered with one bright day
And let the mind's true sunshine
Be spread o'er earth as free,
And fill the souls of men,
As the waters fill the sea

The man who turns the soil
Need not have an earthy mind,
The digger 'mid the coal
Need not be in spirit blind
The mind can shed a light
On each worthy labor done,
As lowliest things are bright,
In the radiance of the sun

The tailor, ay, the cobbler
May lift their heads as men—
Better far than Alexander
Could he wake to life again,
And think of all his bloodshed,
(And all for nothing too!)
And ask himself—"What made I
As useful as a shoe?"

What cheers the musing student,
The poet, the divine?
The thought that for his followers
A brighter day will shine
Let every human laborer
Enjoy the vision bright—
Let the thought that comes from heaven
Be spread like heaven's own light!

Ye men who hold the pen,
Rise like a band inspired,
And poets, let your lyres
With hope for man be fired,
Till the earth becomes a temple,
And every human heart
Shall join in one great service,
Each happy in his part

Association and Dedication.

The Penobscot Association will hold its annual session on Wednesday and Thursday the 10th and 11th of Sept at Hermon, at which time the new Meeting House will be dedicated to the worship of Almighty God as a Universal Father Each society within the limits of this Association is entitled to three delegates A general attendance of the brethren is solicited Strangers will call on Brs Lewis Kimball, E Weller, and Cyrus Hewes, who will direct them to places of entertainment
